Professional Summary

I'm currently a **4th-year** B.tech student with a real interest in full-stack web development, especially using the MERN stack. I've built a few solid projects on my own and really enjoy figuring out how everything works — from frontend logic to backend APIs. Looking forward to applying my skills in an internship where I can learn more from real-world challenges..

Technical Skills

Languages: JavaScript, HTML, CSS, Python (basic level)
Frontend: React.js, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js
Databases: MongoDB, MySQL
Tools & Platforms: Git, GitHub, Postman, Docker[basics], VS Code, Netlify, Linux (basic commands)

Projects

Personal Portfolio about my skills and talent

Developed a ChatApp where we can do real-time chat webApp where we can send messages in real-time using socket.io

Education

1	B.Tech	Christu Jyothi Institute of Technology	2022-2026	Awaiting Academic Results
2	Intermediate	Sahiti Jr.College	2020-2022	89%
3	SSC	ZPHS Golankonda	2020	9.7 GPA

Workshops & Seminars

• Attended a hands-on web dev and data science workshop where I got to try out real tools.
• Learned how teams handle risks in real-world projects through a seminar on Software Risk Management.

Soft Skills

- Good at explaining ideas clearly
- Like working in teams and solving problems
- Stay organized with tasks and deadlines
- Can adapt quickly to new tools
- Always curious to learn something new

Languages Known

English, Telugu, Hindi,Urdu

Hobbies & Interests

- Exploring how technologies work behind the scenes
- Walking and being outdoors
- Visiting new places and learning about them

Declaration

I confirm the information above is accurate and reflects my genuine interest in growing as a web developer. I'm excited to take on challenges and contribute where I can while learning along the way.
